

JACOB COOK

SOC Analyst | Threat Detection & Response | SIEM (Sentinel · Splunk · Wazuh) · MITRE ATT&CK · Sigma · Networking · Malware Behavior

Sacramento, CA · 916 709 1794 · jacobcookofficial@gmail.com
linkedin.com/in/jcook-dev · github.com/jacobdcook · jacobdcook.com

Detection-focused SOC candidate with hands-on experience monitoring SIEM events, authoring Sigma rules mapped to MITRE ATT&CK, and tuning playbooks to reduce noise. Six years of high-pressure rotating-shift operations translates directly into the fast-paced SOC environment Caesars demands. CompTIA Security+, CySA+, PenTest+, and SecurityX certified; BS Computer Science; MS Cybersecurity in progress. Strong attention to detail, structured documentation, and cross-team collaboration with IT and engineering teams.

TECHNICAL SKILLS

SOC & Detection: SIEM Alert Triage, Threat Analysis & Containment, Sigma Rule Authoring, MITRE ATT&CK, Detection & Response Tuning, Playbook Updates, IOC Analysis, Phishing Triage, Malware Behavior Analysis Concepts
SIEM Platforms: Wazuh SIEM (build & admin), Microsoft Sentinel (familiar), Splunk SPL (familiar), KQL (familiar), CrowdStrike Concepts, EDR Concepts
Networking & Systems: Networking Fundamentals (TCP/IP, DNS, Firewall Logs), Linux / Windows Endpoints, Wireshark, IDS/IPS Concepts
Cloud, Identity & Dev: Azure AD / Entra ID, Okta, AWS labs, SSO / RBAC, Terraform, Python · Bash · SQL · FastAPI · Git

TECHNICAL PROJECTS

Stryker / Intune Detection Pack: Detection-as-Code 2026

- Authored 6 Sigma-format detection rules mapped to MITRE ATT&CK that eliminated 100% of false positives in a 100-event simulation — direct detection-and-playbook tuning work expected of an experienced SOC analyst.
- Documented 18 benign false-positive scenarios so SOC analysts can triage confidently without escalating known-good activity.
- Verification: 43 passing pytest cases in repo (tests/test_rules.py).

Blue Team SOC Monitoring Lab: Wazuh SIEM 2026

- Built a full Wazuh SIEM stack from scratch and validated 12 detection patterns against 242 simulated events with 100% precision after tuning, the same SIEM monitoring and analysis work a SOC Analyst applies daily.
- Reduced false-positive volume by 100% by tuning out 79 benign-only matches without dropping a single true positive.
- Verification: 19 passing pytest cases in repo (tests/test_detection_accuracy.py).

SOAR-lite: Incident Response Orchestrator 2026

- Built end-to-end alert automation: webhook ingestion, playbook routing, IP blocking, Slack notification, and incident write-up — the same playbook-driven workflow a SOC team continuously refines.
- Eliminated four manual triage steps and reduced triage time by over 60% in lab testing.
- Verification: 10 passing pytest cases in repo (tests/test_orchestrator.py).

Phishing Analysis Lab 2026

- Triageed 5 phishing samples end-to-end with header inspection, SPF/DKIM/DMARC validation, URL defanging, VirusTotal enrichment, IOC extraction — 100% accurate verdicts.
- Delivered structured triage reports with documented IOCs and attacker infrastructure mapping in SOC report format.

G3-GPT: Industry-Sponsored Enterprise AI Platform (Team of 6) 2024

- Engineered RBAC and Azure AD SSO controls on a production platform — direct identity and access security work transferable to enterprise SOC investigations.
- Shipped enterprise-grade platform on deadline with zero critical security findings at delivery.

PROFESSIONAL EXPERIENCE

Target Distribution Center | Operations Engineer: Systems Monitoring & Incident Response 2019 - 2025

- Maintained 99.5% uptime by triaging telemetry alerts on rotating shifts in a high-pressure operational environment — direct fit for a fast-paced SOC.
- Resolved 200+ anomalies through structured root cause analysis with tracked documentation that reduced repeat incidents by an estimated 30%.
- Reduced mean time to recovery by an estimated 20% via cross-team coordination and post-incident reporting.

EDUCATION & CERTIFICATIONS

WGU | MS, Cybersecurity (In Progress) Expected Oct 2026 · GPA 3.50

CSUS | BS, Computer Science Jan 2025 · GPA 3.50

CompTIA: Security+ · CySA+ · PenTest+ · SecurityX · CSIE (stackable)
