

JACOB COOK

Security Engineer II | Cloud Security · IR · Threat Hunting · SIEM/XDR | Azure · AWS · Sentinel · Entra ID · Python

Sacramento, CA · 916 709 1794 · jacobcookofficial@gmail.com
[linkedin.com/in/jcook-dev](https://www.linkedin.com/in/jcook-dev) · github.com/jacobdcook · jacobdcook.com

Detection-focused security engineer with hands-on experience monitoring SIEM/XDR-style alerts, authoring Sigma rules mapped to MITRE ATT&CK, and engineering Python/FastAPI automation for incident response workflows. Strong cloud and identity foundations across Azure, Entra ID, and AWS labs. Comfortable with vulnerability assessment, threat hunting, and structured IR playbook authoring. CompTIA-certified across four disciplines (Security+, CySA+, PenTest+, SecurityX); BS Computer Science; MS Cybersecurity in progress.

TECHNICAL SKILLS

Detection & SecOps: Wazuh SIEM (build & admin), Sigma Rule Authoring, MITRE ATT&CK, Microsoft Defender / Sentinel (familiar), KQL/SPL (familiar), Threat Hunting, Threat Intel Analysis, IOC Analysis, Phishing Triage
Cloud Security: Azure & AWS labs, Cloud Native Security Tools, Access Control / Encryption / Network Security, Entra ID / Active Directory, SSO / RBAC, Terraform
IR & Workflow: Incident Response Playbooks, Vulnerability Assessment Concepts, ServiceNow Concepts, CI/CD Pipeline (GitHub Actions familiar), Mentorship of Junior Analysts
Development: Python, Bash, SQL, FastAPI, Git, Webhook-Driven Automation

TECHNICAL PROJECTS

- Stryker / Intune Detection Pack: Detection-as-Code** 2026
- Authored 6 Sigma-format detection rules mapped to MITRE ATT&CK that eliminated 100% of false positives in a 100-event simulation — direct advanced-threat-and-actor-technique detection work.
 - Documented 18 benign false-positive scenarios as repeatable evidence to inform new defensive processes.
 - Verification: 43 passing pytest cases in repo (tests/test_rules.py).
- Blue Team SOC Monitoring Lab: Wazuh SIEM** 2026
- Built a full Wazuh SIEM stack from scratch and validated 12 detection patterns against 242 simulated events with 100% precision after tuning — direct SIEM monitoring, detection, and analysis work.
 - Reduced false-positive volume by 100% by tuning out 79 benign-only matches without dropping a single true positive.
 - Verification: 19 passing pytest cases in repo (tests/test_detection_accuracy.py).
- SOAR-lite: Incident Response Orchestrator (Python / FastAPI)** 2026
- Built end-to-end IR automation: webhook ingestion, playbook routing, IP blocking, Slack notification, and incident write-up — directly analogous to ServiceNow Security Incident Response workflow automation.
 - Eliminated four manual triage steps and reduced triage time by over 60% in lab testing.
 - Verification: 10 passing pytest cases in repo (tests/test_orchestrator.py).
- Phishing Analysis Lab** 2026
- Triageed 5 real-world phishing samples end-to-end with header inspection, SPF/DKIM/DMARC validation, IOC extraction, and attacker infrastructure mapping — 100% accurate verdicts.
 - Translated triage outcomes into IOC-driven detection improvements feeding back into SIEM rule tuning.
- G3-GPT: Industry-Sponsored Enterprise AI Platform (Team of 6)** 2024
- Engineered RBAC and Azure AD SSO controls on a production AI platform — direct cloud security and IAM implementation work in a customer-facing context.
 - Shipped enterprise-grade platform on deadline under direct industry sponsor oversight with zero critical security findings at delivery.

PROFESSIONAL EXPERIENCE

- Target Distribution Center | Operations Engineer: Systems Monitoring & Incident Response** 2019 - 2025
- Maintained 99.5% uptime by triaging telemetry alerts on rotating shifts — six years of continuous-monitoring discipline transferable to enterprise SecOps.
 - Resolved 200+ anomalies through structured root cause analysis with tracked documentation that reduced repeat incidents by an estimated 30%.
 - Reduced mean time to recovery by an estimated 20% via cross-team coordination, escalation, and post-incident reporting.

EDUCATION & CERTIFICATIONS

- WGU | MS, Cybersecurity (In Progress)** Expected Oct 2026 · GPA 3.50
- CSUS | BS, Computer Science** Jan 2025 · GPA 3.50
- CompTIA:** Security+ · CySA+ · PenTest+ · SecurityX · CSIE (stackable)
